

TOP DRESSING FOR LAWNS

PROTECT GRASS SEED AND TOP DRESS LAWNS

TOP DRESSING FOR LAWNS is a special formulation designed to protect grass seed and to top dress lawns for a variety of grass applications including: Golf Courses, Sports Fields and Parks. Utilizing a mixture of fine organic material and sand, TOP DRESSING FOR LAWNS works its way down to the root zone and actually becomes humus for the turf.

TOP DRESSING FOR LAWNS never contains human or animal waste, making it safe for recreational activity.
