# DECORATIVE BARK NUGGETS

*The Perfect Complement to Any Landscape*

Organic Harvest's Decorative Bark Nuggets give any landscape a beautiful, finished look. The product is made of virgin bark that comes from fir trees. Use it as a top dressing around flower beds, shrubs and trees. Decorative Bark Nuggets are often used by public works departments in parks and other government landscapes. As the bark decomposes it adds nutrients to the soil.

Decorative Bark Nuggets are red in color and 1" in size.

### GENERAL USE INSTRUCTIONS:

Enhance the aesthetics and functionality of your garden bed by applying a layer of our Decorative Bark Nuggets. Begin by clearing the area of any weeds or debris. Spread the bark evenly with a rake, aiming for a depth of 2-4 inches, maximizing weed prevention & water retention. Remember to create a smooth layer but avoid piling bark directly against plant stems. To maintain effectiveness, replenish the bark layer annually or as needed.

### VOLUME CALCULATION

Application rates range from 1" to 3" deep depending on whether use is new application or used for maintenance.
