

AMAZINGLY BOUNTIFUL REMARKABLY SUSTAINABLE

PATHWAY BARK

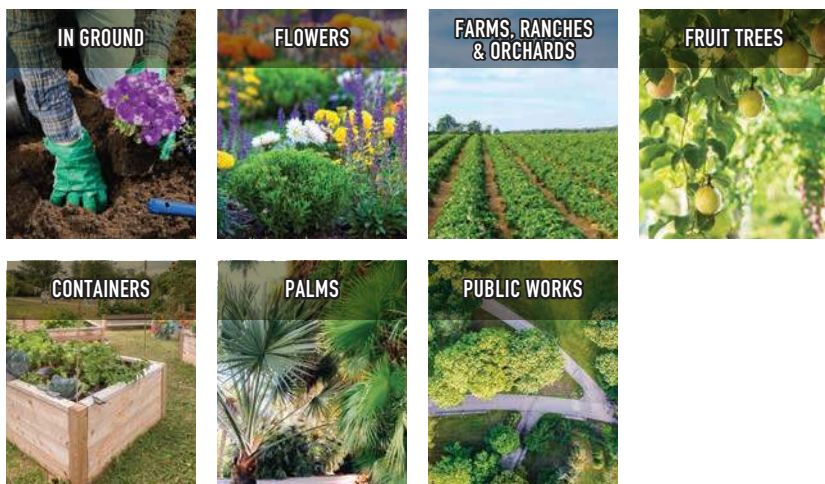

Versatility for Pathway Cover Applications

Organic Harvest's Pathway Bark is one of our most versatile products. It comes straight from nature made from fir trees. This product is a screened material used by the landscape industry as a premium ground cover/bark around flowers, shrubs and trees. It is also used on walkways and other high-traffic areas.

Pathway Bark is brown in color and 1/4"-1.5" in size.

GENERAL USE INSTRUCTIONS:

Elevate the beauty and functionality of your garden beds and pathways with our Pathway Bark. Begin by thoroughly clearing the area of weeds, debris, and any edging stones or borders you plan to replace later. Spread the bark evenly with a rake, aiming for a 2-4-inch depth to suppress weeds. After spreading, use the rake to create a smooth, level layer, but avoid piling bark directly against plant stems or edging to prevent smothering. To maintain this attractive and effective application, replenish the bark layer annually or as needed.

VOLUME CALCULATION

Application rates range from 1" to 3" deep depending on whether use is new application or used for maintenance.

SQUARE FEET ▶	100	500	1000
Depth of 1"	.5 Cubic Yards	1.5 Cubic Yards	3 Cubic Yards
Depth of 2"	.75 Cubic Yards	3 Cubic Yards	6 Cubic Yards
Depth of 3"	1 Cubic Yards	5 Cubic Yards	10 Cubic Yards

BARKS

BENEFITS:

Reduces dust and erosion

Sturdy 100% all-natural materials

Visually appealing, compliments surrounding landscape
