SHREDDED DECORATIVE BARK

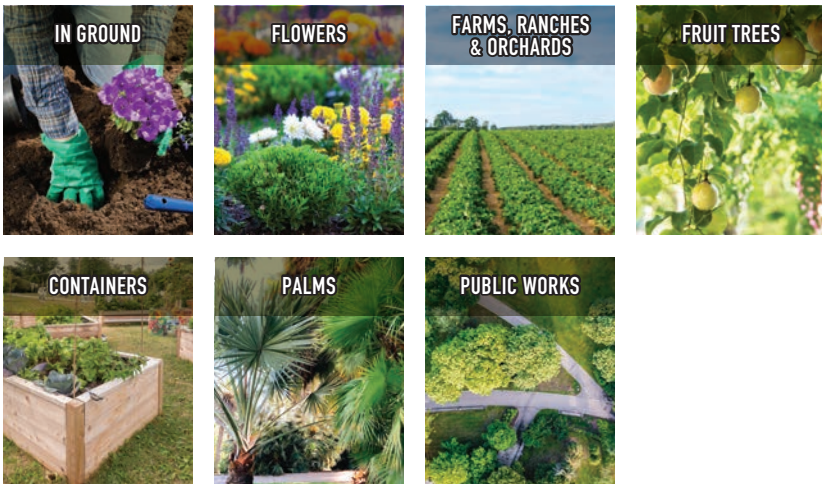

Versatile Bark for Top Dressing and Pathway Applications

Organic Harvest's Shredded Decorative Bark is made of fir tree bark and used as a top dressing, providing a broad variety of looks and styles. It can also be used as a pathway cover.

Shredded Decorative Bark is red in color and is 1/4" to 3" in size.

GENERAL USE INSTRUCTIONS:

Create a beautiful and functional garden bed or hillside with a layer of our Shredded Decorative Bark. Start by clearing the area thoroughly of weeds and debris. Spread the bark evenly with a rake, aiming for a depth of 2-4 inches to optimize weed suppression and moisture retention. Remember to create a smooth layer but avoid piling bark directly against plant stems. To maintain an attractive and effective covering, replenish the bark layer annually or as needed.
